<TEXT>All too typically the FCC seems to favor and encourage then heavy-handedness of a very few big communications moguls. I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal puts an unfair burden on low volume long distance users and and benefits only big business.

I use my wireless phone for safety, security and convenience, and emergency service only. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Robert M. Leidlein
